

Accessories v.2.0 OXP

This OXP adds some eye-candy to the game. The standard Oolite graphics are fairly bland, so in this OXP all the non-ship objects have been re-textured to improve them with a more detailed and realistic look and feature non-shader lighting effects.

Accessories OXP is the companion to Smivs'Shipset (which replaces all the 'core' Oolite ships) and can also be used as a supplement to the other various Ship replacement OXPs.

The retextured objects are:-

- Asteroid
- Beacons (Navigation and Witchpoint)
- Boulder
- Cargo Pod
- Coriolis Station
- Dodecahedron Station
- Escape Pod
- Icosahedron Station
- Metal Fragment
- Missile
- Q-Bomb
- Rock Hermit (there are five alternative versions)
- Splinter
